

Design Objectives

URBAN & LANDSCAPE DESIGN OBJECTIVES

Urban and Landscape Design objectives have been developed in conjunction with Main Roads WA, the City of Fremantle and findings from the site analysis. In general, the urban and landscape design features should support the following objectives:

1. Retain and enhance the local **CONNECTIVITY** (pedestrians and cyclists) and residential **AMENITY**;
2. Deliver roadside landscaping that is **SUCCESSFUL** and appropriate to the **CHARACTER** of the location;
3. **INCORPORATE** the local community's and City of Fremantle's **VISION** into the urban and landscape design treatments;
4. Deliver an **INTEGRATED DESIGN SOLUTION** that **EMBEDS** the road into the surrounding landscape;
5. Deliver underpasses that are **SAFE, INVITING** and **ENHANCE** the local amenity;
6. **RETAIN** and **PROTECT** the existing tree canopy and Tuart trees (where practical);
7. Deliver **LOW MAINTENANCE** and **ROBUST** landscape and urban design treatments;
8. Maintain a **SUBURBAN STREET CHARACTER**; and
9. Incorporate **CRIME PREVENTION** Through Environmental Design principles.
