

Kwinana Freeway Northbound Widening

Russell Road to Roe Highway

Principal Shared Path Phased Detours

From 24 September 2018, a series of cyclist detours will commence to allow the construction of the Kwinana Freeway Northbound Widening project between Russell Road and Farrington Road. Upon completion, the project will deliver an extra northbound lane, noise walls and widening and upgrades to Principal Shared Paths along the western side of this section of Freeway.

Detours for cyclists and pedestrians

A number of options have been carefully considered to maintain a north-south route for Principal Shared Path (PSP) users during construction. A series of detours will be required to ensure the safety of cyclists, pedestrians, road users and our workforce whilst works are taking place.

The first phase, commencing 24 September, involves detouring PSP users on the western side of the Freeway from Dowell Place onto local roads through Bibra Lake, to Farrington Road in North Lake. This phase of the detour continues until December 2018 (approximate timing).

Subsequent phases will see detours extend south to Russell Road in Success. Detours will be shortened or removed at the earliest possibility.

Phase 1 journey map is contained overleaf. Maps will be updated as phases are implemented.

Signage

Temporary signs showing detour route maps will be located at PSP entry points and on Farrington Road and Russell Road, immediately prior to diversion locations. The signs will remain in place for the duration of the works.

Directional signage will guide cyclists through the detour route. The signs will be attached to light posts and reviews of effectiveness and condition will be conducted regularly.

Resident and road user precautions

Road users are asked to take extra care when driving along the detour route. Cyclists and pedestrians may be required to use roads they are not familiar with and their journeys will be longer.

- Look out for cyclists at all times and maintain a gap of at least one metre
- Drivers slow down when passing
- Take extra care exiting and entering driveways
- On bin day, place your rubbish bins carefully to avoid obstructions on footpaths

For further information

Project information and roadworks/detour updates will be provided on the Main Roads project webpage at www.mainroads.wa.gov.au. Click on the 'subscribe' button on the project web page to stay updated.

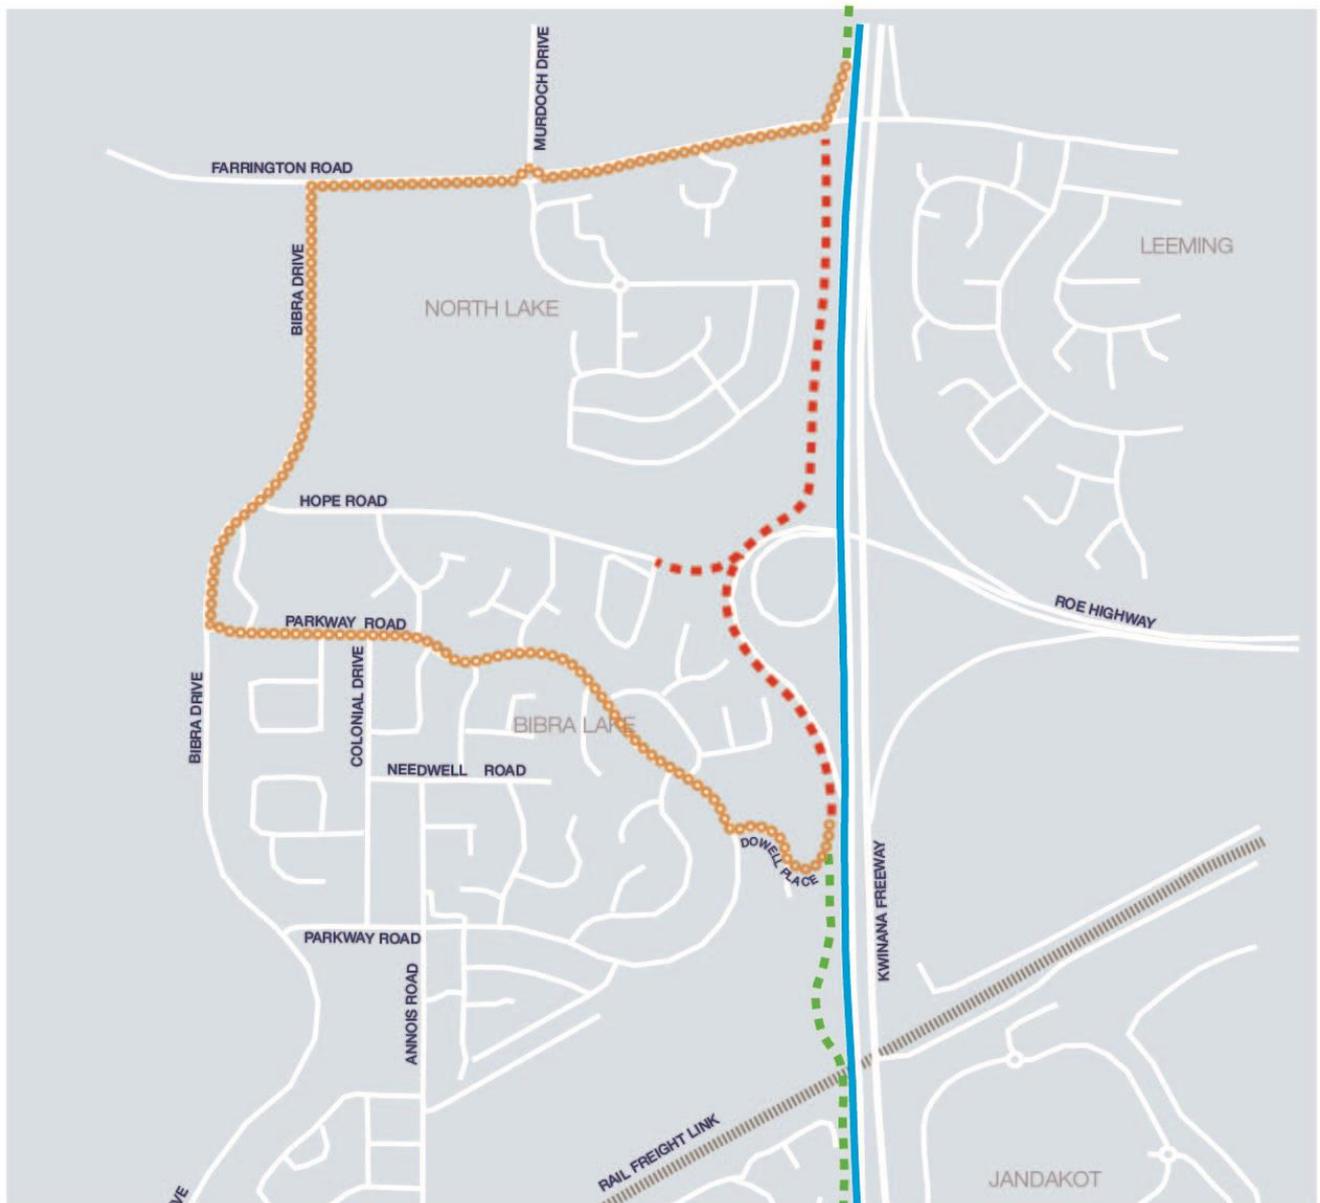

Cyclists can also register for updates via www.westcycle.org.au.
