

# Manning Road Southbound On-ramp to Kwinana Freeway Project

## Service Relocation and Building Demolition Works

**From 12 January to 12 February 2019**, we will be undertaking works to relocate power and light poles and demolish buildings to prepare for the Manning Road Southbound On-ramp to Kwinana Freeway project. The works will take up to one month to complete.

The light pole relocation works will be underway between Lockhart Street and Ley Street in Como. Demolition works will occur at properties in Canning Parade, Lockhart Street and the corner of Manning Road and Clydesdale Street. Main Roads has purchased these properties for road purposes.

Work hours will be between **7am and 5pm, with some lane closures on the westbound lanes of Manning Road required between 9am and 3pm from Monday to Sunday** to minimise impacts on traffic and adjacent residents, and to complete the works as quickly as possible.

Traffic management will be in place on Manning Road in Como between Clydesdale Street and Lockhart Street. This will include reduced speed limits and a single lane closure at times. Works will also occur on Canning Parade, however shall not affect traffic.

In general, driveway access will not be affected during the lane closures. Access to Mt Henry Tavern will remain available from Edgecumbe Street and Lockhart Street during this time.

We would like to thank residents and road users in the area for their patience and understanding while this important project is being progressed.

These works form part of early works to prepare the area for the freeway on-ramp construction later in 2019.

### Noise management and work hours

Residents close to Manning Road may hear construction and machinery noise as the works are undertaken.

We ask road users to obey signs and signals and move through the area with caution.
