

# Wanneroo Road and Ocean Reef Road Interchange

## Construction Update

Work is commencing on the construction of the Wanneroo Road and Ocean Reef Road Interchange. Jointly funded by the Australian and State Governments, the new interchange will improve safety, reduce travel times and alleviate congestion.

### Project scope

- Construction of a road bridge at the intersection, with Wanneroo Road going over Ocean Reef Road.
- On and off ramps including traffic signals.
- Pedestrian underpass under Wanneroo Road south of the interchange.
- Noise mitigation walls.
- Realignment / reconstruction of paths and pedestrian crossing points.
- U-turn facility in the median on Wanneroo Road north of Villanova Street and south of East Street.
- Completion by late 2020.

### Traffic management

Traffic management will be in place from mid-April 2019, through to project completion in late 2020.

While two lanes will be maintained in all directions for the majority of the project, speed restrictions will be in place to ensure the safety of both road users and workers on site. If there are occasions when it is necessary to restrict traffic to a single lane in order to safely undertake site works, this will be done outside of peak traffic hours.

Close coordination with the Wanneroo Road and Joondalup Drive Interchange project will be undertaken to reduce the likelihood of works with the potential to significantly disrupt traffic occurring simultaneously on both projects.

### Find out more

If you have any questions or concerns about these works, please contact Main Roads on 138 138 or email [enquiries@mainroads.wa.gov.au](mailto:enquiries@mainroads.wa.gov.au). If you would like further information about the project please visit the Main Roads website at <https://project.mainroads.wa.gov.au/home>
