

Wanneroo Road Widening

Joondalup Drive to Flynn Drive

Notice to residents

Modification to temporary barriers on Wanneroo Road at night on 19 January

The Metropolitan Road Improvement Alliance, on behalf of Main Roads WA, is delivering the **Wanneroo Road Widening, Joondalup Drive to Flynn Drive**, project in your area as part of a \$2.3 billion package of road and rail infrastructure projects funded by the Australian (\$1.6 billion) and State (\$750 million) Governments.

The project will see the 3.2 km section of Wanneroo Road between Joondalup Drive and Flynn Drive upgraded from one to two lanes in each direction to alleviate congestion and enhance road safety. Construction is scheduled to be complete in late 2018.

To meet changing site requirements, the Alliance plans to modify and extend the temporary concrete barriers on Wanneroo Road, to the north of Joondalup Drive. The barriers are required for the safety of our personnel who are working in the road reserve.

While weather and other factors may influence timing of these works, they are **currently scheduled to occur on Friday 19 January 2018, from 7pm to midnight**. These works must be undertaken at night to avoid major disruption to high-volume daytime traffic on Wanneroo Road and the associated risks to our workforce.

Work activities and noise management

Activities taking place at night will include:

- Installation and modification of temporary barriers on Wanneroo Road, north of Joondalup Drive, which will involve unloading barriers from a truck and using a crane to put the barriers in place
- Temporary traffic management; there are no planned road closures.

Equipment and vehicle movements may create some noise for adjacent residents. To minimise disturbance to residents as much as possible, an out-of-hours noise management plan has been prepared by the Alliance and approved by the City of Wanneroo.

Contact us

If you have any questions or concerns during the works, please call the Main Roads WA Customer Information Centre on **138 138**.
