

Road Closure Notice

NorthLink WA - Northern Section Ellenbrook to Muchea

Warbrook Road - Permanent Closure 2019

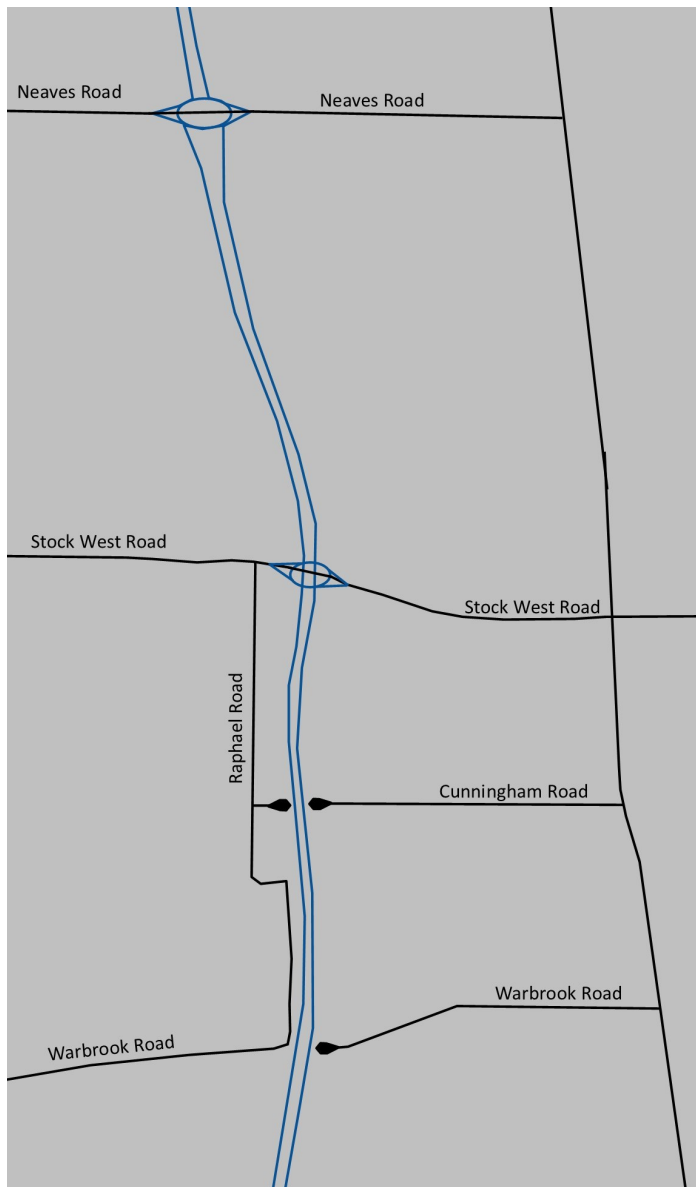

Warbrook Road will permanently close during the first half of 2019 as part of the NorthLink WA Northern Section works.

Warbrook Road has remained open to date to provide a temporary east-west access route across the new highway.

When the Stock West Road interchange is opened in the first half of 2019, this new route will provide east-west access.

At this time, Warbrook Road will permanently close. A cul-de-sac will be provided at Warbrook Road for turning vehicles.

When NorthLink WA northern section is complete, east-west access will be available at new, free-flowing interchanges at Stock West Road, Neaves Road and Brand Highway.
